Accounts Overview

ACCOUNTS

Accounts are password protected keys that can hold Ether and Ethereum-based tokens. They can control contracts, but can't display incoming transactions.

MAIN ACCOUNT (ETHERBASE)

38.53 ether

0x392D44A674D0e76d7c25A2DEE009A869aDdA4A2a

WALLET CONTRACTS

These contracts are stored on the blockchain and can hold and secure Ether. They can have multiple accounts as owners and keep a full log of all transactions.
